WORRY THE BURGLAR
WORRYING THE PRESIDENT.
WORRYING BRITAIN.
WORRYING CHRISTIANITY.

—By Arthur Brisbane—

MR. LOUIS PIERSON of New York's Irving Trust company, delights in annoying burglars. He built, far underground, below his new 50-story building, a safety vault lined with toughest steel, thick as the ancient walls of Jerusalem. It is the biggest vault in the world except those of our Reserve bank and the Bank of England.

NOW HE SURROUNDS his steel walls with a thick layer of water, so that the poor burglar even if he did break through the heavy steel would have to do his work in a diving suit, most awkward for handling dynamite and drills.

Political news deals with an interesting row in the Republican party, a "coalition in the Senate" to upset the Republican program.

President Hoover touches the rebellious ones in a weak spot, asking them why they don't work together, help business and build prosperity?

THIS GOVERNMENT asked "permission" of Great Britain to build one great battleship that would equal the British Rodney, the greatest battleship in the world.

British authorities said no, and worry. They think we plan to build the greatest of all dreadnaughts, a ship "unsinkable."

There is no ship, not the faintest danger of our building anything more than first-class targets for airplanes and submarines.

Taxpayers are fortunate that British authorities, to which we voluntarily submit, tell us we can't spend the money.

RUSSIA'S ATHEIST newspaper calling itself "The Godless One" demands that every church be closed. Promoting anti-church parades by workmen the "Godless one" demands that the gigantic "cathedral of Our Saviour" in Moscow, Russia's biggest church, be used for workmen's "cultural purposes." There is more "culture" in the Saint Chapelle in Paris, and below the vast dome of St. Peter's in Rome than would emerge from all the culture centers that Russia will establish. You can't create culture overnight.

China is not like Russia. Newton Hayes, learned theologian, after years of work is unable to count the gods that China worships. In India 33,339 divinities are worshipped. Ancient Greeks had 30,000. China has many more, and in addition to thousands of idols worships heres, cows, snakes.

Some believe that "insects that devour human bodies have supernatural powers."

AMONG CHINA'S divinities there is no one supreme god, which is confusing, and not very intelligent. But even that is an improvement on a system that says "there is no god."

IF RUSSIANS really believe, as they pretend, that there is no God. Why get so excited?

Millions of Americans believe that there is no Santa Claus, but they take it calmly, do not forbid children to have their Christmas trees or hang up their stockings.

Ghanhi embodies the best definition of a dangerous man, one who "believes every word he says."

Gandhi's present plan in the fight to free India from Britain. (Continued on Page 4)

CONVICTS MUST DIE FOR CRIME

Will Pay With Lives For Murder During Prison Riot; Take Sentence Differently

COURTROOM, AUBURN, N. Y., Feb. 19.—Judge Udwin, Jesse Thomas and William Force, convicted of the slaying of Henry Sullivan, another convict, during the riot at Auburn prison last December must pay for his murder with their lives during the week of March 31.

The death sentences were imposed by Justice Benjamin B. Cunningham.

The trio presented a strange contrast as they were sentenced. Convict Force, first to be doomed to death in the State Prison Electric chair, was pallid. Thomas, the next to be sentenced, looked on his heels as the judge pronounced the death sentence.

Udwin, the last, was smiling and a little insolent.

Good morning boys, how are you? he greeted reporters as he entered the court. He leaned his elbow on the clerk's desk until a guard motioned for him to straighten up. Udwin looked Justice Cunningham straight in the eye as he heard the death sentence imposed and then turned with a smile and a flip of his hand to say: "Okay, judge."

Nine Killed, Sixty Are Injured In Explosion

NAPHTHA GAS IN EASTERN PLANT TRAGEDY CAUSE

Blazing Alcohol Sprayed Over Workers Near Blast Scene

DEATH LIST WILL GROW, REPORTS SAY

Many of Injured Will Not Be Able To Use Eyes Again, Belief

ELIZABETH, N. J., Feb. 19.—Two deaths in hospitals today brought to nine the toll of fatalities resulting from yesterday's explosion in the alcohol experimental plant of the Standard Oil company at Bayway, near here. Fifty-four injured were still in hospitals. Physicians said several could not live.

Four separate investigations began last night, within a few hours after the terrible blast had demolished the two-story concrete building, were under way today.

The investigations were being conducted by Prosecutor Abe J. David, of Union county; Police Chief Frank J. Hickey, of Linden, the New Jersey state department of labor, and James R. Carringer, general manager of the plant.

ELIZABETH, N. J., Feb. 19.—An inquiry was to be opened today to officially determine the cause of an explosion and fire at the Bayway refinery of the Standard Oil Company of New Jersey in Linden, in which seven lives were claimed and more than 60 other workers were injured.

Explosion of naphtha gas and fire in a huge tank of alcohol were believed to have caused the disaster in the company's alcohol experimental building, which was covered with sheets of liquid flame yesterday afternoon.

Early today three of the critically injured were reported dying, seven others were not expected to recover and many of the injured may be blinded for life, physicians said.

Most of the victims were masons, carpenters and laborers working on a building under construction adjoining the alcohol plant.

The first explosion was believed to have torn loose naphtha pipes leading into the alcohol laboratory. Two more explosions of huge alcohol stills followed and in an instant the flaming naphtha fumes and blazing alcohol combined to make a thousand tongues of fire that immediately enveloped the plant.

Many workmen became burning torches as sheets of blue flame shot about. The few who escaped injury threw their coats over their heads and blindly groped their way to safety.

More than 3,000 men and women were working in and in the vicinity of the refinery at the time of the explosion.

Twenty Million Dollar Project Breaks Out To Send Waters Down Through Valley

Columbia, S. C., Feb. 19.—Releasing tons of water to rush down a valley, endangering a number of river towns, Tullahoma, Tenn., seven miles above here, broke today.

Greatest danger was feared for New Brookland, a town just across the Congaree river from Columbia.

The dam, a \$20,000,000 project of the Broad River Power company, was in the course of construction, and was the largest earthen dam in the world.

The dam was only about three-quarters finished.

The cause of the break was not determined.

Lecture On Syria Scheduled Tonight

This evening Princess Rahme Haidar, author, lecturer and dramatist, will give the first of a series of three Palestinian evenings at the Methodist church. The program begins at 8.

"She will give costume recital, 'Under Syrian Stars.' In this she tells of the manners and customs of her own people.

Thursday evening she will give a four-act drama, 'Naaman, The Leper,' the story taken from the Bible.

On Friday evening, her last appearance in Salem, she will show moving pictures of the Holy Land. She will also give one act of her drama, 'Ruth and Naomi.'

HOOVER AID ASKED IN RELIGIOUS STRIFE

NEW YORK, Feb. 19.—President Hoover was appealed to today to "protect religion from attack" by Russian Soviets in a letter forwarded him by Arthur J. Brown, president of the Presbyterian Board of Foreign Missions, on behalf of the

American committee on religious rights and minorities.

Protesting against the "denial of the right of religious freedom in Russia" and declaring that "persecutions" in the Soviet country "have shocked the moral sense of the world," the letter, in a resolution embodied in its text, asked that the president refuse to recognize Soviet Russia until its anti-religious campaign ceases.

At the same time \$1 million Lutherans throughout the world were asked by Dr. John A. Morehead, president of the Lutheran world convention, to set aside March 2 as a special day of prayer for Russian Christians.

A statement issued by the American Jewish congress denounced the "unspeakable repression" of religion in Russia and pledged cooperation with other faiths in a campaign to end the "wrongs in Soviet Russia."

COMMISSIONERS ACT IN DELAYS ON ROAD WORK

Salem-Valley Road Work Too Slow, Is Claim; In Default

LISBON, Feb. 19.—The Dennison and Sturgess Construction company of Youngstown, has been declared by county commissioners to be in default on the grading contract of the Valley-Salem road, and the surety, The Union Indemnity company, of New Orleans, La., with C. M. Booth of Youngstown as agent, has been notified to take over the contract and complete the project.

When the contract was awarded the Youngstown concern last fall, definite promise was given commissioners that the grading would be finished in sufficient time to permit the concrete surfacing of the road this year. According to an estimate given by County Surveyor Lloyd C. Kirk, only about one-sixth of the grading has been completed, and that this is only rough grading.

It is the intent of the commissioners to have the surety on bond to come before the board and arrange to have this project taken over by a contracting interest able to go through with the project and complete the grading so that the road can be surfaced as has been agreed.

YOUTH RETURNED TO THIS COUNTY

Will Face Charges In Connection With Two Robberies Here; Wanted In Toledo

LISBON, O., Feb. 19.—Virgil Reynolds was returned from Portsmouth today and lodged in the county jail for complicity in the East Liverpool filling station and East Palestine restaurant robberies which occurred recently.

Reynolds has confessed, authorities state.

Arrangements were made with Toledo county authorities to return Reynolds to that county to face automobile theft charges if a grand jury indictment was not returned here.

Real Murder Comes After Screen Show

KANSAS CITY, Feb. 19.—The thrilling murder climax to a motion picture shown at a suburban theater here preceded a real murder.

The picture had ended after depicting a murder in a New York rooming house. The patrons were relaxing their emotions as they began leaving the theater when a scream was heard and William Hayden, 18, slumped to the floor, stabbed to death.

A youth, said by witnesses to be Roy Parker ran from the theater and escaped. Friends of the two boys said Hayden and Parker had been enemies for two years. Roy Parker, father of the boy sought for the murder, said he had given his son a knife to protect himself from Hayden. The father was held pending the capture of the son.

SALEM STORES PREPARED FOR DOLLAR EVENT

Friday and Saturday Will Result In Unusual Bargains Here

Thousands of shoppers in the Salem trading area are expected here Friday and Saturday for the semi-annual community dollar days regarded by local merchants as one of the outstanding mercantile attractions of the entire year.

As has been the policy in the past, virtually all Salem stores, representing every phase of business life, will offer during regular business hours hundreds of articles at reduced prices. During these hours merchants will invite customers to partake of cut-prices as their token of goodwill.

Patrons this year will be treated to bargain values not only on staple goods and the home merchandise in everyday demand, but hundreds of popular spring items. Sales forces have been augmented in stores and will insure patrons the best of service and give them ample time to select their purchases carefully.

The 1930 community dollar day is to be a continuation of a policy of Salem merchants to set aside days each year, in the fall and in the spring, which render a general community service and an expression of goodwill.

It is a cooperative business bureau movement to place customer interest above all else.

CLEVELAND MEN HELD IN DEATH

Two Will Be Accused of Murdering Todaro Over Feud

CLEVELAND, Feb. 19.—Dominic Serrapio, 21, and Angelo Lombardo, 21, a pair of "Big Joe" Lombardo, both of whom have been sought since last June 11 in connection with the underworld slaying of Salvatore (Black Jack) Todaro, were jailed here today.

The pair is under murder indictments.

Todaro was fatally wounded last June by gunmen who called him to their automobile at "bloody corner," Woodland S. E. and E. 110th streets. Police believe Todaro was slain in reprisal for the murders of "Big Joe" and John Lombardo, both of whom were shot to death in a corn sugar-broiler feud here.

Secrecy surrounded the circumstances of the capture of young Lombardo and Serrapio. They were brought to central police station by Detective Serg. Charles Cavolo who refused to say where he found the pair. Lombardo and Serrapio likewise refused to talk.

Springlike Weather Visits Columbiana County Today

Thoughts of spring rushed into Salem today as the mercury hovered near the 50 degree mark, the highest it has been in the year of 1930.

The best part of it is that weathermen state it will be warmer and fair tonight and that while Thursday will be overcast part of the time, the spring-like temperatures will prevail for another day at least.

While even the most optimistic realize that cold and snow is still on the menu for this part of the country for several weeks yet, all take consolation in knowing that the northward bound voyage of Old Joe is playing its part in making the

OFFICIALS THINK THIRD MAN AIDED IN HORST CRIME

Conrad Shielding Someone Is Belief of Those Handling Case

DOUBTS NEW STORY TOLD BY ACCUSED

No Search Started After "New Grave Story" By Hanna

WOOSTER, O., Feb. 19.—Belief that Earl Conrad is shielding a third man in the killing of Melvin Horst, 4-year-old Orrville boy, who mysteriously disappeared the night of December 27, 1928, was expressed here today.

This statement was made following a secret conference late yesterday in the court house, which was attended by Mrs. Maude Sewell, of Columbus, close friend of Conrad, who was called into the investigation in an attempt to make Conrad talk.

The report said that Conrad blamed another Orrville man, who has previously been named in the disappearance of "Little Boy Blue" and that Charles Hannah, who is also being held, planned the alleged murder and attempted to involve Conrad. The name of this third Orrville man was not made public.

Mrs. Sewell told officials that Conrad said to look for a secret vault in the home of the man he mentioned, or else dig in the rear yard of the Frank Frye home, where Conrad lived. It was in the garage of the Frank Frye property that both Conrad and Hannah declare the boy was slain, each claiming the other did the killing.

Do Not Believe Story
Investigators, however, do not take much stock in the new story which Mrs. Sewell said Conrad told her. Prosecutor Marion Graven reported.

Man Facing Charge Married In Jail

PORTSMOUTH, O., Feb. 19.—David T. Roberts, 32, who is being held here for the authorities of Erie county to answer a charge of robbing the Berlin Heights bank, near Sandusky, sentenced himself for life here yesterday.

Mrs. Myrtle Perry, 31, also took the life sentence. They were united in marriage in the Sheriff's office, by the jail chaplain.

The bride will go to work and await her husband, who, authorities say, has admitted the robbery of the bank, on February 1, of \$2500, and is willing to return to Erie county and "take his medicine," so he may start life anew.

ARREST OF MAN MAY RESULT IN SENATE INQUIRY

Bootlegging Charges Are Lodged In Court By Authorities

WASHINGTON, Feb. 19.—The arrest of George Cassidy, the "mysterious man in the green hat" in front of the senate office building on charges of bootlegging, was cited today by senate advocates of a prohibition inquiry as another reason for investigating dry law enforcement.

Senator Wheeler (D) of Montana, who sponsored a resolution for a sweeping senatorial inquiry into all activities of the prohibition bureau, declared the actions of the "man in the green hat" ought to be investigated. Senator Jones (D) of Washington, author of the "five and ten" law, went further and said the senate ought to learn "who" Cassidy intended to see in the senate office building. The structure houses the private offices of senators and their hundreds of clerks.

"This episode ought to be the subject of a senate inquiry," said Wheeler, "it is one more reason why the senate ought to investigate prohibition enforcement and its enforcement."

"There is evidently something wrong," said Jones, referring to the fact that Cassidy has twice been arrested in front of the senate office building. "It ought to be brought out, if possible, why he was going there and whom he intended to see."

4 STREETS ARE TO BE IMPROVED

Council Takes Action At Meeting Tuesday To Take Bids

Four ordinances providing for improvements of Salem streets by paving were passed under suspension of rules by city council Tuesday night.

The issues authorized council to proceed with the final legislative step in improvement of four streets, that of accepting bids from contractors for the projects.

The streets effected in council's action follow:

West Wilson at between New-garden ave and Sharp ave.

Fourth at between North Lincoln ave and Hawley ave and between North Elsworth ave and North Howard ave.

Sugartree court between North Lincoln and a point 147 feet east of the east line of Vine ave.

Service Director Clyde E. Reich is expected to advertise for bids from contractors for the projects within the next two weeks, the entire 1930 street improvement program being expected to start soon.

County Will Weigh Trucks On Highways

Lisbon, Feb. 9.—A set of road scales has been purchased by county commissioners, and is to be put into immediate use in weighing trucks that travel the improved highways of Columbiana county.

Weight of truck loads have been decreased by the state and it has come to the attention of the commissioners and County Surveyor Lloyd C. Kirk that many trucks are still being driven over the roads containing excessive weights.

County commissioners are expected to appear.

No Further Meetings Are Scheduled Between Four Powers

BULLETIN
LONDON, Feb. 19.—Crippled by the absence of France from the negotiations, the five powers naval disarmament conference was adjourned this afternoon for one week.

LONDON, Feb. 19.—The London naval conference may be suspended for a week or 10 days pending the formation of a new French cabinet and the return of the French delegates to the parley, it was learned today.

The movement for a temporary suspension of the conference negotiations originated among the American delegates and was supported by the British experts.

It was prompted by a feeling that the continuance of the negotiations might be continued as unfair to the French. In addition it was realized that nothing tangible could be accomplished during the absence of the French delegates.

It was also feared that the press might take no pains to hide the fact that it considered the continuance of the negotiations a mere sham.

M. Maitland, visited Ambassador Dwight W. Morrow at the Ritz hotel this morning and informed him that although the French experts still remaining here were willing to continue discussions, they felt little could be accomplished.

The sub-committee considering limitation of special auxiliary vessels not coming under the recognized categories met at 11 o'clock this morning but aside from "this meeting, there were no important business sessions."

No further meetings between the delegates of the four powers remaining at the conference are scheduled.

LEWIS SEEKS STATE OFFICE

St. Clairsville Man To Enter Race For Senatorship

St. Clairsville, Feb. 19.—Atty Earl E. Lewis, this city, today announced his intention of being a candidate for the Republican nomination for the state senate from the 25th-22nd district, which includes Belmont, Harrison, Jefferson and Columbiana counties.

Lewis served one term in the senate, being elected for the term of 1927-28. At the primary in 1928, however, when the one senator restriction was placed on the district, he was defeated by the late Senator Harry Carpenter, Steubenville.

During the one term Lewis served in the senate he was recognized as one of the able representatives in the body. This is demonstrated by the numerous important committees on which he was placed. This list included taxation, highway, county affairs, labor, judicial, automotive and others.

FORD AND EDUCATION

Henry Ford has announced that he will devote his remaining active years and a vast sum of money to the service of education. He defines that service in definite terms: "I want to do all in my power to help young men of America to fit themselves into the world. Society owes it to the young people to educate them for useful citizenship and, for my part, I am going to devote the rest of my active days in the interest of trade schools and teaching."

Mr. Ford, confident in the worthiness of his plan, posts a curt advance notice that he will require no amateur assistance from persons who have never made or saved a dollar. His individual rights in this respect are, no doubt, unassailable, but in the broader sense there is room for argument. When he implies that everybody should learn a trade he is taking in a lot of territory and when he goes further and insists that he is capable of taking care of the matter himself he is acting contrary to his own principles.

Education is not Mr. Ford's "trade." A number of specialists have spent their lives and a large portion of their incomes in learning it while he has been learning the automobile business and the game of high finance. Refusal to take advantage of their experience would be overlooking opportunity to make the most of his project.

There are many who disagree with Mr. Ford's apparent theory that everybody should learn a trade. Life is far too short for a series of apprenticeships and some men must be left free to devote themselves to preparation for greater usefulness in the arts, the sciences and the professions. Efficiency defeats itself when it attempts to place all individuals in a common mold.

The adverse comment current concerning Mr. Ford's commendable proposal may have convinced him that amateurs are already at work advising him and in consideration of the fact that he may have been misquoted and misinterpreted the result may not be favorable. Mr. Ford may be irritated, but that state of mind might be lightened if he considered that the people whom he intends to help have a certain amount of pride in lending their assistance.

THE WORLD MAY JUDGE

Blame for the disaster which befell the Italia on its expedition to the North pole has been placed definitely on the shoulders of Umberto Nobile, commander of the dirigible. Although the world had reached its decision long before, the report of the investigating committee closes the question as far as discussion in official circles is concerned.

The report is a crushing rejoinder to statements made by Nobile in books written by him since his rescue from the ice-fields. It accuses him of conduct "contrary to all traditions of military honor . . . poor navigation . . . and inability to handle his crew." He is particularly condemned for permitting himself to be rescued before other members of the crew were conveyed to safety. Eight of them perished on the ice and nine others, including Captain Roald Amundsen, noted explorer, gave their lives in the attempt to rescue them.

Umberto Nobile, deprived of his title and officially denied the glory accompanying it, has paid a high price for his adventure—an adventure which might have made him the toast of the world. But his loss does not compare with that of the others who trusted his ability, nor with that of the hardy men who gave their lives to correct what appears to have been his life, precious despite rebukes.

There will always be some who will be inclined to discount the official reports in the case, continuing to regard Nobile as a potential hero whose ambition outran his capabilities. There are others who will regard him as ill-fated, a Columbus whose achievement failed because of the action of forces out of his control. The goal of heroism is

marked by so thin a line that no one is ever sure when it is crossed.

California will probably explain that the Coolidges passed through Florida simply that the change from the chilly blasts of the North to the glorious winter weather of the Golden Gate state might not be too abrupt.

What Others Say

IS MOSCOW A COUNTERFEITER? The statement of Basilia Sadathiaschvili, a defendant in a counterfeiting case in a criminal court in Berlin, that the Soviet government has forged American, British and continental paper money, is quite in line with early stories regarding the money-making activities in Moscow.

The testimony of the Berlin court witnesses, however, mentions dates which indicate that a practice supposed to have been prevalent in the earlier, more radical days of the Soviet regime never has ceased; but on the contrary has been perpetuated as a regular policy. Sadathiaschvili said that as late as last year a great many of the forged American and British notes were sent to Mongolia for General Feng, and to Irkutsk to be used in Siberia and the Far East. He charged that Moscow even tried to circulate counterfeit in London.

Undoubtedly the communist government will deny that it has been guilty of such actions, but they ought to be susceptible of proof if they actually have been performed, and it will be worth the while of the civilized world to get the facts beyond possibility of doubt. If the charge is proven, no prudent power will have room for doubt about what ought to be done regarding the question of diplomatic intercourse with the bolshevik capital—Detroit Free Press.

The Stars Say—

For Thursday, Feb. 20

An active and intriguing state of affairs is forecast from the predominant lunar transits. It is probable that employment may give concern and new ventures may inspire an imprudent and perilous use of funds. Purely personal relations may assume singular, eccentric or disappointing angles unless discretion be used.

Those whose birthday it is may look for a lively year, but one of anxiety in employment, and of new ventures calling for previous use of funds. Personal relations may also be intriguing. A child born on this day may have many unusual talents and graces, but also many adverse situations to contend with.

Magnesia Best For Your Indigestion

Warns Against Doping Stomach With Artificial Digestant.

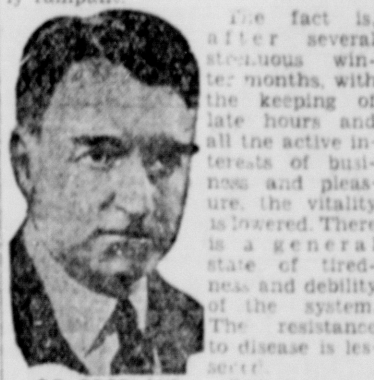

Most people who suffer, either occasionally or chronically from gas, sourness and indigestion have now discontinued disagreeable diets, patent foods and the use of harmful drugs, stomach tonics, medicines and artificial digestants, and instead take a teaspoonful or four tablets of Bisurated Magnesia in a little water after meals with the result that their stomach no longer troubles them, they are able to eat as they please and they enjoy much better health. Those who use Bisurated Magnesia never dread the approach of meal time because they know this wonderful anti-acid and food corrective, which can be obtained from any good drug store, will instantly neutralize the stomach acidity, sweeten the stomach, prevent food fermentation, and make digestion easy. Try this plan yourself, but be certain to get Bisurated Magnesia especially prepared for stomach use.

HEALTH

By Dr. Royal S. Copeland

AFTER INFLUENZA—WHAT?

At this season of the year cold, influenza and pneumonia are usually rampant.

DR. ROYAL S. COPELAND

The fact is, after several seasons, with the keeping of late hours and all the active interests of business and pleasure, the vitality is lowered. There is a general state of tiredness and debility of the system. The resistance to disease is lessened.

This is an opportune time for the influenza germ to get busy. Of course, we always have these germs with us. In every community there will be occasional cases of the disease, or even a more or less severe epidemic.

For those who are recovering from an attack of this disease, great precaution should be taken not to have a relapse. This is apt to be a serious thing. Pneumonia, hundreds of cases every year, follows influenza.

It is difficult to get up from influenza. Even after a slight attack, where there has been only a short duration of fever, there is great physical weakness. This is due to unstable condition of the nervous system produced by the disease. It takes time to get back your old vigor.

Among the precautions it is essential that the house be kept warm. Be extravagant with heat for the time being. Have plenty of ventilation, but do not sit or lie in drafts.

There are three other things which are indispensable to complete recovery from the effects of influenza. They are sunshine, fresh air and proper food.

In most parts of the country at this time of the year, hours of sunshine are limited. Plan so as to avail yourself of every bit of sunshine you can get. Be out in it for two hours, around noon, when the sun is at the highest. Of course if it is too cold, it will not be possible to stay outdoors for so long a time.

Science seems to find a way to meet every obstacle on the path to good health. Now we have the ultra-violet lamps. Their regular use gives new energy and life to the tissues through the life-giving ultra-violet rays, which are really sunshine. If you can avail yourself of these treatments through your doctor, well and good.

Then there are certain kinds of window glass which transmit the ultra-violet rays of the sun, which the ordinary window glass does not. Perhaps the time is not far off when our houses and business places will be equipped with this kind of window glass. Recent investigations and experiments have proved the efficiency of these indoors as a means of admitting all the rays of sunshine. As time goes on, we shall know more about them.

Get all the fresh air possible. Not only be outdoors all you can, but sleep with all the windows open, and be warmly covered. Restful sleep and rest help greatly in your recovery.

the time to recover their health and strength. Ambition may oftentimes be misplaced in this regard. If you get up too soon you may have a relapse, and that you do not want. Do not run the risk of this, but take time for full recovery before you venture forth seeking new worlds to conquer.

FEBRUARY HAS SHOWN GROWTH IN EMPLOYMENT

January Decrease Rapidly Being Overcome As Industry Gains

WASHINGTON, Feb. 19.—The department of labor, through the bureau of labor statistics, announced today that there was a decrease, "to a considerable extent seasonal," of 2.6 per cent in employment, and 5.4 per cent in pay-roll totals, during January, in eight major industrial groups.

These groups were manufacturing, quarrying, public utilities, trade, hotels, and canning.

The total number of establishments reporting in all these groups for January was 34,857, having that month 4,792,669 employees, whose combined earnings in one week were \$125,205,182.

Employment increases in January, as compared with December were: hotels, 2.8 per cent; bituminous coal mining, 1.1 per cent.

Employment decreases in January were: anthracite mining, 4.7 per cent; metaliferous mining, 2.8 per cent; quarrying 7 per cent; public utilities, 1.4 per cent; wholesale trade, 2.5 per cent; retail trade, 21.6 per cent, canning, 24.8 per cent.

September Good Month

The bureau said that in September 1929, manufacturing employment was greater than at any time since March 1927, but a 1 per cent decrease in October was followed by decreases of over 3 per cent each in November and December.

"Although the level of employment in early January (in manufacturing establishments) was still below that of early December, the tabulated reports for January 20 and 27, and reports so far received for the week of Feb. 3 and 10, show a continuation of the upward trend, indicated that the course of employment up to the middle of February, 1936, is in accord with the upward course in the same period in previous years," the bureau report said.

"Two of the main industrial groups — vehicles and leather — showed substantial increases in employment in January as compared with December—the first being due to the notable increase of 7.8 per cent in the automobile industry, and the second to the smaller seasonal increase of 2.4 per cent in boots and shoes."

Other separate industry increases in employment over the month were: iron and steel, 1.4 per cent; sugar refining, 5.6 per cent; millinery, 5.6 per cent; fertilizers, 11 per cent; agricultural implements, 3.2 per cent; automobile tires, 2.9 per cent; shipbuilding, 4.8 per cent.

Communists Blamed For Mine Disorders

BELLAIRE, O., Feb. 19.—Communists have been active in the Powhatan mine district, for the past few months, today are believed by county officials to have incited the disorders yesterday at the Powhatan mine in which a score of miners suffered cuts and bruises.

The Belmont county common pleas court gave Sheriff Ford Moore permission to employ 22 special deputies to patrol the mine districts, where strikes are on against the reduction of wages.

HORST CASE

(Continued From Page 1.)

marked: "It seems untrue to me."

The two men still maintain their characteristic attitudes, and officials believe that their long, drawn-out sessions in an attempt to make Donald "break," have been of no avail thus far.

Donald still refuses to talk to the officials. He has answered, "I don't know" to every question which the officials have flung at him. When Hannah asked him to "come through clean," the former railroad brakeman said, "I don't know a thing."

Hannah clings desperately to his "blind confession," in which he said that the body of Melvin Horst had been taken from the temporary grave in the rear yard of what was then his home at Orrville and was re-buried near a bridge along Sugar creek, several miles from the town. Donald, Hannah declared, made the removal and the second burial.

No Search Made

As yet there has been no official search for the reported second grave of Melvin Horst. Hannah sent city and county officials, as well as hundreds of citizens on a "wild goose chase" Monday, to the rear of his former home, and officials do not want recurrence. They want to break down the stories of both Hannah and Donald, secure what they believe are the true confessions of each, and then find the body.

The task of wearing Donald down until he "breaks," has been fruitless so far. Officials will again concentrate on Donald today, they said.

A vain attempt to make Donald talk was also made by George Hulbert, Columbus, Donald's half-brother. But again the "iron man" answered, "I don't know."

What action the investigators will take regarding the reported statement which Donald is said to have made to Mrs. Sewall, had not been decided.

Dry Man Shot

BELLAIRE, O., Feb. 19.—Peppered with pellets from a shotgun, Guy Casino, 37, under-cover agent for the state prohibition department, who helped in a recent Belmont county liquor cleanup, and was himself indicted for a third-offense liquor sale, is in a hospital.

AERIAL RUNNER CRASHES PLANE

Flier Then Pays Fine For His Liquor Cargo; Brought From Near Detroit

ZANESVILLE, O., Feb. 19.—Clinton R. Heiligenstein, 22, of Detroit, was fined \$300 and costs in common pleas court here today, when he pleaded guilty to a charge of conspiracy to violate the prohibition laws.

Heiligenstein was arrested Monday night when his red Travelair biplane was wrecked at Pleasant Valley, near here, during a landing. Officials declare 10 sacks of alleged Canadian liquor had been in the plane.

The pilot declared he delivered the liquor to a "blonde woman boot-legger" here, who is believed to be the operator of an aerial rum-running route. He said the woman loaded the liquor in a large automobile and drove away.

The Detroit man said it was his first trip here, and admitted that he brought the liquor from a place "near Detroit."

REPORT BYRD ON WAY HOME

Vessel Arrives To Bring Men Back To United States Port

NEW YORK, Feb. 19.—Rear Admiral Richard E. Byrd and his antarctic expedition will start on the way back to the United States this afternoon, the New York Times and newspapers affiliated with the Times in publishing reports of the expedition announced today.

The bark, the City of New York, with Byrd and his party on board, was reported by the times as within sight of the bay of Whales at midnight last night, and is expected to tie up to the ice barrier near little America, the Byrd camp, early today.

The camp had already been dismantled and Byrd and his men expect to start on their homeward voyage this afternoon.

Church Lands May Go Into Cemetery

At the last general conference of the Methodist Episcopal church held at Cambridge, O., it was determined that Hart's Methodist Episcopal church in Salem township, Columbiana county would no longer be used for religious purposes.

This move has been followed by the trustees of Hart's church going into common pleas court with a petition seeking permission of the court to convey its property and buildings to Hart's Cemetery association, an incorporated body, but not for profit.

The old church building is located in section 21, Salem township, and consists of three tracts of land, all of which is desired by the trustees of the church to be turned over to the cemetery association.

TASK CONFRONTS PRESIDENT WITH RADIO SELECTION

Group Must Be Appointed Soon; Senatorial Battle Looms

WASHINGTON, Feb. 19.—With a hostile senate lying in wait, President Hoover today faced a major political and economic test of his leadership in the naming of a new federal radio commission.

The president must name the entire membership of the commission and have his appointees confirmed by Saturday or the commission temporarily goes out of existence. Under existing law, the terms of all present commissioners will expire Sunday and they will be unable to continue in office beyond that date.

Rumors have spread that the president contemplates naming new commissioners in place of Chairman Ira E. Robinson, of West Virginia, and Vice Chairman Eugene O. Sykes, of Mississippi, while giving another term to Commissioners Crestes H. Caldwell, Sam Pickard and Harold A. Lafount. If he does this, he will project one of the biggest senatorial battles of his administration, since a large number of progressive senators are ardent supporters of Chairman Robinson.

Some concern was felt on Capitol Hill over the President's plans for the commission. It was pointed out that while secretary of commerce, he did not favor commission control of radio industry.

Driver Freed After Police Quiz Crash

COLUMBUS, O., Feb. 19.—D. M. Smith, 70, a coal peddler, was killed here today when he was struck by an automobile which was driven by Elmer Marer, 28. The aged man died almost instantly.

The tragedy occurred while Smith, in the western outskirts of the city, was pushing a two-wheeled cart in the same direction in which Marer was driving.

Marer reported the accident to police immediately. He was questioned and released. Police declared it an unavoidable accident. Marer told police that the man swerved to the center of the road and that he could not avoid striking him.

Tardieu Improved; In Consultation

PARIS, Feb. 19.—Looking much better after spending several days in bed with a severe cold, Andre Tardieu today conferred with President Gaston Doumergue, presumably to discuss the possibility of his attempting to form a new cabinet.

After a half an hour's consultation with the president, however, M. Tardieu would only admit that he "had only outlined the situation at London for the benefit of the president."

Nevertheless the conference was regarded as significantly indicating that M. Tardieu had been asked whether or not he was willing to form a cabinet to succeed his old government.

CARGO OF TIRES STOLEN ON ROAD

"Wild West" Bandits Take Truck And Contents After Binding Driver To Tree.

CLEVELAND, Feb. 19.—Executing their holdup in a fashion reminiscent of the "wild west," four bandits seized a truck carrying a \$10,000 cargo of tires today and left Van C. Bushnell, Akron driver, gagged and bound to a tree in Mayfield Heights village.

Bushnell who was enroute to Lima with a load of 160 truck tires, told police that the bandits attacked him as he was driving up a steep incline near Medina. Two men brandishing revolvers, he said, ran out from the side of the road and leaped on the running board of his truck and forced him to stop.

An instant later, according to Bushnell's story, an automobile with two occupants drew up. The four highwaymen dragged Bushnell from his truck, gagged and blindfolded him and bound him to a tree.

After robbing him of \$43 in cash, the bandits drove away with the truck load of tires. Bushnell later succeeded in freeing himself from his bonds and escaped to Mayfield Heights where he notified authorities.

Government Ready For Farm Census

Preparations are being made by the United States department of commerce to take the 1936 census of agriculture in the United States and possessions.

Agricultural census "sample" schedules, containing more than 350 questions relating to general farming, will be sent to the farmers of the country soon, and census enumerators will call on all the farmers during April to take the figures for the official records.

Cooperation of Columbiana county farmers with the census bureau and the enumerators was urged by M. R. Wright, Columbiana county agent, who is distributing schedules in this county.

SENATE ACTS IN TARIFF MEASURE

Will Attempt To Speed Measure; Farmers Form Center

WASHINGTON, Feb. 19.—Senate leaders heading the request of President Hoover to speed up action on the tariff bill today took up the schedules on agriculture.

This attempt to expedite the long-hanging bill and pass it along to conference is nothing new. For weeks the leaders have tried to make progress but each time have met defeat at the hands of the insurgent coalition.

President Hoover, calling together the Republican leaders of both the senate and house, has warned them unless the way is cleared in the senate for appropriation bills the government may find itself "broke" by the middle of March when payment of current expenses is due.

The agriculture schedules will come in for considerable debate, it is believed, because there are several amendments to be heard, generally raising the rates on farm products as set by the house committee. In this the insurgent coalition bloc is expected to support measures that will mean increases for the farmers.

Many Arrested For Ohio Mine Disorder

POWHATAN, O., Feb. 19.—Fifty special Belmont county deputy sheriffs arrested four women and nine men at the Powhatan mining company mines here today.

All those who were arrested are negroes with the exception of one. They are charged with attacking Eugene Bentley, who was struck with a piece of brick yesterday and who was attacked again today, in connection with the wholesale strike of Communist miners, who are controlling the National Miners' union strike at the mine.

Editor News:

It has come to my attention that my personal integrity is being questioned in regard to my interest in behalf of the city school district being extended to include Perry Twp. school district.

While getting the signatures to the necessary petition for the transfer of the schools I was frequently asked if the petition had anything to do with the city extension proposition, to which I replied that it did not, and I still say that it had nothing whatever to do with city extension. Either of the propositions would have carried just as they are if the other had not existed. It was unfortunate that the two propositions were coincident. It is a fact that the city board of education did pass a resolution directed to the board of county commissioners to the effect that if they would grant the city extension they in turn would accept the schools. The commissioners promptly rejected this resolution, and by email informed the board of education that when they had accepted the township schools they would consider the city extension proposition and not before. Thus in so far as either had to do with the other the order of precedent was reversed.

from the common disgruntled concept. Notwithstanding these incidents I still maintain as my opinion that either of the propositions would have carried had the other not existed.

My reason for offering this public explanation is that I object very much to the accusation of "double-crossing". My personal preference in the matter would have been for the whole township to have been included in the city extension proposition. City ordinances could have been zoned so as not to interfere with rural farms or other properties, while to leave the remnant of the township that now remains as a political unit appeals to me as something of a joke.

Any fair minded citizen who wishes to know the truth and talk the truth can verify these statements in the offices of the county commissioners and the city board of education.

Five hundred and such were favored games. Winners in the five hundred games were Elmer Ruffer, Mrs. Andrews, Mrs. Monnell and Mr. Bowman. Raffle prizes went to Mr. Robush, Mrs. Briggs, Mrs. Leach, Mr. Bobb, Lunch was served after the games.

Joseph Murray has returned to St. Vincent's college, after spending a few days with his parents, Mr. and Mrs. Joseph Murray, Lincoln ave.

GILBERT AUXILIARY

Officers for the ensuing year were selected at a meeting of the Annie B. Gilbert auxiliary of the Presbyterian church Tuesday evening at the home of Mrs. E. S. Vincent, East Third st.

The officers are: President, Mrs. Ford Dilworth; vice president, Miss Caroline Hole; secretary, Mrs. George W. Bunn; treasurer, Mrs. Alfred Jones.

Mrs. Jones and Mrs. Bunn were elected delegates to the Presbyterian meeting, which will be held March 11 and 12 at Lisbon.

Mrs. J. A. Feir gave a paper on "Our First Americans" and a duet was sung by Mrs. Grant Elton and daughter, Mrs. Harold England, with harp accompaniment. Refreshments were served at the social period by Mrs. Vincent and her associate hostess, Miss Ora Vincent.

SURPRISE DINNER

Mr. and Mrs. G. C. Greenstein delightfully entertained members of the basketball team of Salem High school, Mr. and Mrs. Floyd Stone and Mr. and Mrs. H. McCord at a chicken dinner Tuesday evening at their home, Depot rd. in honor of the birthday anniversary of their son, Clifford, "Skipper" Greenstein. The party was a surprise for Clifford.

The table was prettily decorated in pink and white tones. Rosebuds formed the centerpiece. The favors were Washington's birthday novelties. The evening hours were devoted to visiting and cards.

FARR CLASS

Members of the Farr class of the Christian church and their families had an enjoyable covered dish supper Tuesday evening at the church. The evening was devoted to playing games. Miss Ethel Beardmore, teacher of the class, will teach the Young People's class next Sunday morning and the members of the Farr class are invited to go with her to this class.

The text meeting will be on March 18.

FAREWELL PARTY

Members and friends of the Nazarene church had a farewell party for Rev. and Mrs. C. R. Watson Tuesday evening at the parsonage on East Second st. Rev. Watson expects to leave in the near future to engage in evangelistic work. The hours were enjoyed in games. A two-course lunch was served.

WEDDING DATE ANNOUNCED

Miss Isabel Smith, of Salem, has selected March 19, for the date of her marriage to Paul Hershell, of Canton.

Announcement of the date was made at a prettily appointed party given by her sister, Mrs. Michael Schuller at her home, North Howard ave., last evening which interested 20 friends of Miss Smith's.

Bridge was a favorite pastime. Prizes offered in the games were won by Miss Guitard, of Canton, and Mrs. Lester Berger, of Salem.

After the games the guests went to the home of Mrs. W. E. Smith, North Howard ave., mother of the honoree, for a two-course lunch. Valentine decorations were used effectively on the table. There were ribbons from each place to Valentine in the center of the table. Inside the Valentines were the names of prospective bride and groom and the date of their marriage.

SAPPHIRE CLUB

The home of Mr. and Mrs. James Horton, East Fourth st., was the center of a delightful party Tuesday evening, when the Sapphire club members assembled there to celebrate Mrs. Horton's birthday anniversary. The party was a surprise for the honoree.

A covered dish dinner was an enjoyable feature. Mrs. Horton was presented a gift by the club and each member gave her a birthday greeting card.

Mr. Horton and their son, Ernest, helped arrange the party. Mrs. Clyde Knepper and Mrs. William Baker were guests of the club.

TODAY

(Continued From Page 1.) ish control is a campaign of disobedience.

Don't obey the law, don't pay taxes, don't sit in the local legislature, don't do anything.

THIS WORRIES Britain, for 300,000,000 natives not doing anything that Britain wants done would present a difficult problem. You can manage a skittish horse, calm a rearing horse, or a pulling horse. But a balky horse defies you. Even if you light a fire under him, which you should not do, he may move up a step and burn your wagon.

TWO \$50,000 SPEED boats, each carrying three Liberty motors, with 38 knots speed, will help hunt rum runners in New York waters.

Other fast boats, costing \$250,000 will be put on the lakes to check rum running there.

Automobile makers will spend 15 millions scrapping old cars to clear the way for new cars and moderate the second hand cars nuisance.

R. H. Grant, vice president of General Motors, one of the best salesmen in America, is chairman of the scrapping committee.

Perhaps Grant could find a way to ship those old cars, knocked down, to foreign countries, China, Africa, anywhere. Ten million old cars scattered over the earth would soon create an appetite for ten million new cars, just as the little car creates a demand for a bigger car.

ADOPTED A resolution to send sympathy of New York's people to the Christian people of Russia in being denied the right to worship God in their country and the use of their churches, convents, monasteries and schools.

LENNINGRAD'S "Union of militant atheists" yesterday denounced the "popes criticism of Russia's attitude on religion" saying "there will come a time when the atheist workers of the entire world will convert the Vatican into a museum."

HOME-MAKING HELPS

By Wanda Barton

Silk dresses that Great-aunt Janet bought in the seventies hang in the attic closet, quite intact. Those were the days when a lady expected a fine dress to last—not a season or two, but for years and years. And a fur coat was an investment for a lifetime. It didn't matter when beautiful fabrics became a bit shabby—as long as it was obvious that the material had once been fine and expensive.

Who thinks of quality particularly today, when buying a frock or a coat? Style is paramount. To maintain a youthful appearance it is necessary to wear clothes of the season. And as few can afford to replenish a wardrobe freshly each season with fine, expensive materials, it follows that we demand new styles in the inexpensive fabrics. A recent government survey of women's buying habits disclosed that style is first. Price second and quality third in determining what to buy. Which would have seemed most imprudent to an earlier generation.

But it actually is eminently suited and therefore most practical, for the temper of today. Instead of one beautiful evening frock of such fine fabric that it endures three years, we have three beautiful frocks of more perishable material—a fresh one every year. Feeling much the better for it. No lady feels particularly happy in a last year's dress, even though it is a superlative quality of material. In a smart frock, brand-new in cut and color, she feels serenely self-confident, sensibly oblivious to the fact that the silk won't last a lifetime.

Feeling modish is far superior to the consciousness of elegance gone a bit shabby.

Speedy Relief For Sore Throat

This Doctor's Prescription Requires No Gargling. No longer is it necessary to gargle and choke with nasty tasting medicines to relieve sore throat. Now you can get almost instant relief with one swallow of a doctor's prescription. This prescription was re-filled so often and became so popular that the druggist who originally filled it decided to put it up under the name Thoxine and make it available to everyone.

The remarkable thing about Thoxine is that it relieves almost instantly, yet contains nothing harmful. It is pleasant tasting, and safe for the whole family, and is guaranteed to relieve sore throats or coughs in 15 minutes or money back. Just ask for Thoxine, 35c, 60c, and \$1.00. Sold by The J. H. Lease Drug Co., Flooding's drug store and Bolger & French's and all other good drug stores.—Adv.

Woman Killed

MANFIELD, O., Feb. 19.—Mrs. William G. Herold, wife of a prominent local insurance agent, was instantly killed today, when the automobile which she was driving, skidded into a roadside fence and overturned on the Ashland-Manfield road, about eight miles from here.

AVOID UGLY PIMPLES

Does a pimply face embarrass you? Get a package of Dr. Edwards Olive Tablets. The skin should begin to clear after you have taken the tablets a few nights, if you are like thousands of others.

Help cleanse the blood, bowels and liver with Dr. Edwards Olive Tablets, the successful substitute for calomel; there's no sickness or pain after taking them.

Dr. Edwards Olive Tablets do that which calomel does, and just as effectively, but their action is gentle and safe instead of severe and irritating.

Thousands who take Olive Tablets are never cursed with a "dark brown taste," a bad breath, a dull, listless, "no good" feeling, constipation, torpid liver, bad disposition, pimply face.

Olive Tablets are a purely vegetable compound, known by their olive color. Dr. Edwards spent years among patients afflicted with liver and bowel complaints and Olive Tablets are the immensely effective result. Take nightly for a week. See how much better you feel and look. 15c, 30c, 60c.

Questions the Wisdom of ever paying more for any car

Its rich appointment and appearance; its outstanding performance, remarkable economy and its pride of ownership, in every particular of motor car satisfaction, questions the wisdom of ever paying more for any car.

It is a question that motor-dom is everywhere asking. It is revealed in hosts of new owners turning to Hudson from every size and price field. It is confirmed in the most spontaneous welcome ever extended an eight-cylinder car.

This is the car which all Hudson's past achieve-

ments are set aside to produce. That fact alone speaks for a remarkable development. When you see and ride in it you will understand that an entirely new standard of motor value has been established.

It genuinely questions the wisdom of paying more for any car.

Rheumatism Curbed After Years of Suffering

Magnolia Resident Cannot Praise Owa-Ton-Na Enough

JOHN W. LEICHTER

John W. Leichter, prominent resident of Magnolia, Ohio, and former road supervisor, says: "Several years ago I had a very bad attack of muscular rheumatism. Sometime before this attack came on I had been getting in a run-down condition. I was constipated and at times I would have attacks of gas and bloating spells. My kidney had not been acting the way it

they should and I was troubled with frequent headaches which kept me tired all of the time.

"The results I received from this Indian Herb Tonic were wonderful. In less than one week I was at my work again without any inconvenience and it did not take long till my system was entirely cleaned up of the poisons that caused these terrible pains. It just seems that Owa-Ton-Na cleanses the system from top to bottom. My constipation was gone, my kidneys acted normally and I did not have those gas spells.

"My appetite got to be wonderful and even though I ate a lot of things that were supposed to be bad for rheumatism, they did not seem to hurt me. I cannot praise Owa-Ton-Na enough for what it has done for me and several times a year I take a few bottles to keep my system clear of the poisons that cause trouble. Although I got rid of this trouble several years ago, there have been no signs of its coming back and I have certainly been feeling fine ever since. I have great faith in Owa-Ton-Na and recommend it highly to those suffering from conditions for which it is recommended."

Golden Eagle Team Loses Second Straight Game

Art Jewelers Annex Five-Point Decision In Hard-Fought Tilt

The Golden Eagles, content with the first half city Class A league championship, are apparently not expecting to put forth extended efforts for titular honors during the second half schedule for, minus the big guns of the former title-holders, the team lost its second straight decision Tuesday night.

The Art Jewelers mastered the Birds 29-24, in a hard-fought encounter last night, taking advantage of the opportunity afforded them by the absence of Bob Cope, Rub Allen and Les Older from the losers' lineup to annex a five-point verdict.

The Golden Eagle flippers are out of the running for the second consecutive setback while the McArtor Florists continue as favorites to cop the flag during the present race. The Florists were the first team to trim the Golden Eagles, doing this with apparent ease last week when Older was unable to appear with the champs.

In another league battle the Grate Motors were noosed out 16-14 by the Electric Furnace.

Scott's Manager Might Get Sharkey Peeved; Danger

BY DAVIS J. WALSH

New York, Feb. 19.—One of the greatest fight crowds in history will be in Miami one week from tonight—and, along about the following Monday, a lot of them probably will see Sharkey fight Scott in the movies.

Hardy wayfarers, being just a little set in their ways when it came to eating, began to arrive in town today from the scene of the great struggle and the above is essentially the story they told. The said there was a plenty of people in Miami but that most of them had found travel so broadening that they decided to walk in from the end of the last street car line; that is, everything was going to be all right with them as soon as they found a good, reliable place to print their money.

\$300,000 For Gate
The gate, it was estimated, would not beat \$300,000 and might go no higher than \$275,000, at which figure the garden people will get out with a modest profit. A modest profit usually is something you put in the west hand of your hat, along with that letter from Irene.

They also say that Sharkey is in a high dungeon at Mr. James J. Johnston, the manager of Scott, and may take a swing at James at almost any hour of the day or night. It is a thing that ought to be discouraged immediately. If Sharkey takes a swing at James, there will be one more visitor to Miami who won't see the prize fight. It seems that James keeps burning Sharkey up by referring to the latter as a big bum and using other well bred terms to express the same thought and, of course, that isn't right. Sharkey himself will tell you that he isn't as big as he looks.

May Get Peeved
Anyhow, James is taking the surest way of losing this prize fight. All you have to do is kick him sufficiently and Sharkey will go out and lick the Cuddestrum guards, in total, few are giving Scott a chance, as it is. They say Sharkey looks like a million dollars in a show window and that Scott won't go five rounds, which may be only another way of

Damascus Boy Wins Contest In Alliance

Russell Kelly, of Damascus, won from Gene Wenick, of Canton, by a technical kayo in the second round of an amateur bout in Alliance last night. Kelly weighed 126 pounds and Wenick 127.

Kelly's victory places him in the final of the Alliance tournament which will be held next Tuesday night.

LEETONIA

The Luther league of St. Paul's Lutheran church met in the chapel on Monday evening at 6:30. "What Makes a Great Man," was the subject discussed by Thomas Crothers. An invitation has been received by the Luther league to attend a district meeting at Holy Trinity church, Akron, on Saturday.

The Leetonia chapter, Order of Eastern Stars, met Monday evening in the Masonic hall. One candidate was initiated. Following the meeting, lunch was served by the committee in charge.

The women of St. Patrick's church will hold a card party in the K. of C. hall tonight, Bridge, five hundred and euchre will be played.

Letters have been mailed to all members of St. Paul's Lutheran church requesting their presence to-night at a congregational meeting to decide whether they shall go forward this year with the erection of a new church. The meeting will be in the chapel at 7:30.

Pittsburgh Strike Remains Unabated

PITTSBURGH, Feb. 19.—Pittsburgh's taxicab strike was continuing virtually unabated here today following a blocking of peace negotiations by the cab driver's union.

Civic and business leaders and public officials were continuing their efforts, however, to halt the strike and negotiate a peace treaty. The men demand 40 percent of the metered receipts, but the cab companies still stick to their offer of 37 1/2 per cent.

Sheriff Robert S. Cain announced that he hoped to have some definite announcement regarding the end of the strike today or tomorrow.

The test of life or death for every chick occurs during the first few weeks after hatching. Avoid double loss of egg production and loss of chicks by death, by feeding

Ryde's "Startrite" Chick Food

One pound of Ryde's "Startrite" Chick Food will raise a baby chick well past the danger period. It is a natural, safe food made from choicest granular grains, bulleted oats, selected whole seeds with natural oil retained, special meat scraps and dried buttermilk. Easy to feed and economical; best results are had by feeding it dry from the tupper. Complete feeding directions are included with every bag. Your dealer can supply you.

More Chicks Will be Chickens
For your protection, Ryde's "Startrite" is constantly "Chick Tested." This assures results to you.

Use Ryde's "Hay-To-Grow" Chick Mash for rapid growth after the first few weeks. Combines the best growing feeds and necessary minerals.

"Make Them Lay." Ryde's "Hay-To-Lay" Egg Mash with buttermilk supplies egg-making elements for greater egg production in one economical, convenient, unequalled food.

FREE The interesting, instructive "Make Them Lay" Chick Game, which includes play board, spinner and model chicks, will be sent FREE (worth 75c) upon receipt of your name and address. Include 10c to pay postage and packing. Address Ryde & Co., Mrs. 5434 W. Roosevelt Rd., Chicago, Ill.

SALEM MAN HAS GAINED HONORS IN RADIO WORK

George Morrow Becoming Well Known Over Entire Nation

George Morrow, whose amateur broadcasting has made his name known in 59 countries, is soon to take his place among inventors and improvers of the radio. Mr. Morrow is patenting a transmission coil for which a large manufacturer of radio parts has already offered a price. The new device greatly increases the efficiency of broadcasting, giving 87 per cent efficiency in power used—almost double the results obtained by present methods.

Morrow has accomplished a number of tests in his broadcasting activities. Among other things, he recently "spoke" to stations in four continents within four hours, a feat seldom accomplished.

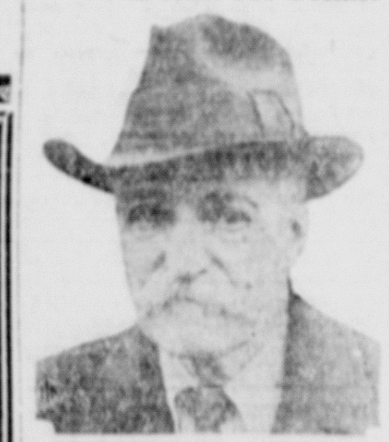

And so interesting has his work been that a large newspaper syndicate sent a flattering article, picturing Mr. Morrow, to hundreds of newspapers in America.

Active Commercially

It has been only recently that Morrow has become active in commercial radio work. His knowledge of the radio makes him a man in thousands to inspect and service machines. For that reason, the Salem Tool company, distributor of the McMillan and Commander radios, has retained him as their radio engineer and service manager. Through this connection, the Salem Tool company is able to offer an unusual service, no matter from which dealer the McMillan or the Commander may be purchased.

In the E. L. Grate Motor Co. and the Lease Drug store, the Salem Tool company has two well-established firms to sell the McMillan and Commander. The Tool company is putting considerable resources into the promotion of the radio, which it is distributing for heads of the firm believe that they have two makes of machines which can meet any test expected of radios of much higher price. The McMillan, while considered outstanding among radios, is priced, complete with tubes, at only \$150 to \$250. The Commander ranges in price from \$90 to \$150, also complete.

V. L. Battin Offers Excellent Products

You can't drive a mile anywhere in the United States without finding a filling station. Many motorists might believe that there are thousands who would pass up a dozen stations in as many miles in order to get to the one they prefer to patronize.

The principal fault to be found with many filling stations is that the operators do not have sufficient local interest. The selling of gasoline and oil is often their one and only aim. They pay too little attention to their obligations to the community. While any station owner is primarily interested in selling gas, that is their means of livelihood, the public is coming to a growing realization that they can be better satisfied by dealing with such independently owned stations.

FLORISTS MUST DISPLAY SKILL

Plants, Like Humans, Are Subject To Many Diseases

Skill of the operators of greenhouses used by florists is one of the greatest factors in the satisfaction of purchasers of the products, whether these be potted plants or cut flowers. In the modern greenhouse industry, the raising of flowers has become more than gardening and must be ranked with the skilled arts. Florists plants are sensitive things. They not only respond to skill, but they seem almost affected by the personality of the workers. Most people will recall some one who had remarkable success with plant life without apparently knowing more about them than the next door neighbor, for whom little would grow satisfactorily.

Plants are subject to sickness and disease almost as much as human beings. If a potted plant, for instance, is to be taken from a greenhouse into a home, much of the success of the home flower lover will depend upon the treatment the plant has received before he or she gets it.

Gains Commercially

In the time it has been growing to a commercial size it has undergone almost a baptism at the hands of the florist. Constant watchfulness as to temperature, moisture and plant food are to be expected, but there is also that fostering care that prevents the baby plant from having any one of a hundred diseases and enables it to grow in beauty of form and foliage. It must be prepared for removal by undergoing a series of weeks in conditions about as will be found in the average home. It will then be hardened from the greenhouse atmosphere before it goes to the customer.

An inspection trip through the greenhouses of Endres Floral company, located on Lincoln ave., will show to the flower buyer why this house has developed so large a business and why its products are always preferred. It is simply a matter of the utmost care. The large greenhouses are laboratories where in a finished product is prepared for the market, with the addition that they are also studios, where form and color are ever sought as well as hardiness. Strength, beauty of form and gorgeous coloring come only from plants raised right, and this company is always pleased to show you how they do this work.

At 737 East State st. they maintain an uptown store for your convenience; of course phone orders are given prompt attention, the store number is 28; if too late to reach them there try the greenhouse number, 37.

FINE COAL ON SALE BY FIRM

Salem Concern Offers To Consumers A Varied Selection

Service is one of the big things that is expected from a coal dealer. He has to get the fuel to us when we want it, and the manner of the delivery and the courtesy of all concerned is a big thing. But there is another service that is just as valuable—even more so. It is the kind of coal he gets us. Most coal yards get good coal—they have to if they expect to stay in business. But once in awhile one of them gets extra good coal, and then when we find that out, the public finds it out everybody wants that particular coal.

That has been the experience of The Citizens Ice & Coal Co. This company carries a fine stock of coal, including in it many kinds. But when it is asked to recommend a coal that will give real satisfaction, furnishing more heat per dollar and less ashes, everybody at the coal yard is enthusiastic for Champion or Crystal Block.

Patrons too get enthusiastic on the subject. Everybody presumably has at some time or other got in a load of coal that looked fine and yet acted like—well, like it wouldn't burn just for spite. And when a big fire finally persuaded it to light, that same coal could produce more clinkers and ashes than anybody wanted to carry out. Because of such experiences many people insist on having a branded coal—one that they have burned and know fills the bill. Those who use Champion coal say that it burns better, is cleaner and causes no trouble. Therefore The Citizens Ice & Coal Co. has a fine trade in it, that increases each season as more people learn about it. Call Salem 646 and let them tell you what people say of it.

Installment Plan Refused By Court

SAN ANTONIO, TEXAS, Feb. 15.—The in-growing habit of paying for everything on the installment plan probably has its virtues, but they are not recognized by the federal court.

A woman, fined by Judge Duval West for violation of the prohibition act, sought to pay her assessment of \$100 at the rate of \$50 down and \$10 a month. Deputy Clerk J. F. Caroline, however, refused to assume the role of bookkeeper and installment collector.

COURT NEWS

Journal Entries

A sale has been confirmed, a deed ordered and a decree of distribution has been entered in the tax lien foreclosure proceeding filed in common pleas court by County Treasurer Fred George against Joseph S. Falcon. In the same case the court has entered a judgment against Falcon and in favor of H. G. Duton for \$533.97 and costs.

There has been a dismissal at the costs of the plaintiff in the divorce action filed by Ruth Roseberry against her husband Walter Roseberry. The petition having been made a matter of record Oct. 7 last.

In the injunction action filed by Frank Sherburne of Lisbon against the Erie Railroad and others, the court has granted the plaintiff leave to amend the petition by striking out certain words and by other in-
terpretations.

The Board of Education of Columbiana has obtained a judgment in common pleas court against A. M. McLaughlin on its original claim of \$124 for tuition. The judgment, however, with interest has been entered against McLaughlin for \$191 and costs.

R. F. Taggart and others of East Palestine have been ordered by Judge W. F. Lones to appear in common pleas court at 10 o'clock Tuesday morning and answer in the proceedings in aid of execution in the case of the Engineering Supply and Mfg. Co. against the National Tire and Rubber Co. of East Palestine. Recently the plaintiff obtained a judgment in common pleas against the defendant on a cognovit note for \$2,007.61.

Leave to the Perpetual Savings and Loan Co. to file an answer and cross petition at once has been granted by the court in the partition action recently filed in common pleas by Chalmers T. Nicholson against Morris Nicholson and others.

A sale has been confirmed, a deed ordered and a distribution order entered by Judge W. F. Lones in the foreclosure action filed by the Pottery Savings & Loan Co. against Daniel J. Smally and others.

Foreclosure of mortgage and an order of sale has been made in the case of the Peoples Savings & Loan Co. against Franklin D. Rohrer and others against whom judgment for \$221.61 and interest and costs has been entered.

Court Au'orizes

The board of education of Columbiana school district has been authorized by Judge W. F. Lones in common pleas court to make present and future levies and assessments to pay a judgment of \$4,074.40 and costs in the case filed against the board of education by County Treasurer Fred George for tax purposes. There was a trial to the court and the issues found in favor of the county treasurer.

Verdict Returned

A verdict for the defendant was returned by a jury in common pleas court late Tuesday afternoon after it was locked up 15 minutes in the case of Jean F. Schafer, a minor, by her next friend, her father Paul Schafer against John Staiton, a

resident of Salem township. Staiton was sued for \$15,000 damages as a result of an automobile accident. The child was injured when a car in which she was a passenger and driven by her mother overturned. It was disclosed during the trial that the Schafer car was not struck by that driven by Staiton, and negligence was not proven.

Goes to Higher Court

The case of Paul D. I. convicted in the mayor's court at Columbiana on a charge of driving a motor vehicle while in a state of intoxication has been taken to common pleas on error, motion for leave to file a petition in error having been filed by Atty. Frank W. Springer of East Palestine, as counsel for the defendant.

Doll was fined \$109 and costs in the Columbiana court, the charge against him having been filed by Chief of Police E. L. Mitchell, Jan. 18, last.

"JAZZ HEAVEN"

At The State

Clyde Cook's inimitable comedy
shines anew in "Jazz Heaven." Sil-
ent or talking, Cook always can be
depended on to bring a laugh. Hen-
ry Arnetta, who plays just a bit
with Cook in a piano-moving scene,
does an Italian characterization that
shouts for attention. Blanche Fri-
derici, the wife of the reformer in
"Sadie Thompson," gives an inter-
esting and amusing characterization
as the landlady who ousts Brown
and Miss O'Neill "because her house
is respectable."

Well Balanced Cast

That master of comedy, Joseph
Castro, and his partner in the
music publishing business, Albert
Conti, stir the rebelliousness of the
most confirmed gruff. All in all,
the cast is well balanced. A board-
ing house, the office of a music pub-
lisher and a broadcast station serve
as the settings for "Jazz Heaven."

"TANNED LEGS"

At The Grand

A new slant on the younger gen-
eration that will cause many an
American parent to both ponder
and smile is presented amid dan-
zable beauty in "Tanned Legs."
The screen at last seems to have
caught the spirit of twentieth cen-
tury youth in this effervescent dra-
ma which features Ann Penning-
ton, Arthur Lake, Dorothy Revier,
Sally Blane, Albert Gran and June
Clyde.

ITCHING LEGS WHEN ZEMO TOUCHES SKIN

—thousands say. It's wonderful the
way soothing, cooling Zemo brings
relief to skin which itches and burns.
Even in most severe cases, itching
disappears almost as soon as Zemo
touches the tender and inflamed sur-
face. To draw out local infection and
help to clear away unsightly blem-
ishes, we know of nothing better than
invisible Zemo. Always keep this
family antiseptic on hand. Use it
freely. It's safe as can be, 35c, 60c
and \$1.00. All dealers.

"Somebody to See You!"

If everybody with something to interest
you should some and ring your bell, what a
nuisance it would be. Think of the swarm-
ing, jostling crowd, the stamping of feet on
your porch and carpets!

Every day we know of many callers who
come to see you. They never jangle the bell
—they don't take up your whole day trying to
get your attention. Instead, they do it in a
way that is most considerate of your privacy
and your convenience. They advertise in your
newspaper!

In this way you have only to listen to those
you know at a glance have something that
interests you. They make it short, too, so you
can gather quickly just what you want to
know. You can receive and hear them all
without noise or confusion in comparatively
few minutes.

In fairness to yourself, look over all the ad-
vertisements. The smallest and the largest—
you never can be sure which one will tell some-
thing you really want to know.
